European Journal of Orthodontics

Volume 13 (1991) Subject entries

Activator-headgear treatment
How effective is the combined ... 482
Aesthetic analysis
... of the face 343
Age
Effects of ... on nasal cross-sectional area in children 311
Age differences
... in adult dentoalveolar heights 149
Agenesis
Autotransplantation of teeth in cases with ... or traumatic loss of maxillary incisors 486
Amine fluoride products
Results of a 3-year oral hygiene programme, including ..., in patients with fixed orthodontic appliance 129
Andresen treatment
The effect of ... on overbite and molar eruption 53
Vertical skeletal change associated with ... 47
Ankylosis
... of primary molars 404
Autoradiographic study
Growth of the cartilages of the mid-line cranial base of the Wistar rat: an ... using ^{35}S-sulphate 75
Autotransplantation
... of teeth in cases with agenesis or traumatic loss of maxillary incisors 486
Awareness
Orthodontically treated young adults: ... of their own dental arrangement 7

Baseline data
... in a survey of craniomandibular disorders in 1000 12-year-olds 111
Begg treatment
The effect of ... on overbite and molar eruption 53
Vertical skeletal change associated with ... 47
Bicondylar position
Relationship of ... to occlusal asymmetry 441
Body size
Effects of ... on nasal cross-sectional area in children 311
Bond strengths
... of five different ceramic brackets 293
Bonding materials
Glass ionomer cements used as ... for metal orthodontic brackets 187
Bracket and wire composition
Effect of ... on frictional forces 322

Cartilages
Growth of the ... of the mid-line cranial base of the Wistar rat 75
Centres of resistance
Location of ... for maxillary anterior teeth measured on human autopsy material 452
Cephalometric analysis
Intercranial reference lines versus the true horizontal as a basis for ... 167
Cephalometric changes
... during headgear-reactivator treatment 466
Cephalometric digitizers
Linearity of ... 337
Cephalometric evaluation
A postero-anterior ... of adult open bite subjects as related to normals 410
Cephalometric scaling methodology
... in limited samples 157
Cephalometric study
... of the long-term effects of the Herbst appliance in relation to the treatment growth period 471
Ceramic brackets
A comparison of shear bond strengths between new and recycled ... 306
Bond strengths of five different ... 293
Cheek pressure
... against maxillary dental arch during dummy sucking 362
Chinese NiTi wire
Examination of ... by a combined clinical and laboratory approach 386
Class I individuals
Comparison of 'normal' TMJ-function in ... 27
Class II individuals
Comparison of 'normal' TMJ-function in ... 27
Class III individuals
Comparison of 'normal' TMJ-function in ... 27
Class III malocclusion
... a comparison of extraction and non-extraction techniques 212
Costochondral transplants
Interrelationship between size and tissue-separating potential of ... 459
Craniofacial morphogenesis
An extra X chromosome effect on ... in men 329
Craniofacial morphology
Relationship between jaw muscle cross-sections and ... in normal adults, studied with magnetic resonance imaging 351
Craniofacial structures
Association between morphology of the first cervical vertebra, head posture, and ... 435
Craniomandibular disorders
A survey of ... in 1000 12-year-olds 111
Craniomandibular dysfunction
Relationship between ... and patients of speech sound production in a series of first-graders 378

Deep bite treatment
... in relation to mandibular growth rotation 86
Dental arrangement
Orthodontically treated young adults: awareness of their own ... 7

Dental changes
... following sagittal split osteotomy for correction of mandibular prognathism 134
Dentoalveolar development
The effect of osseointegrated implants on the ... 279
Dentoalveolar heights
Age differences in adult ... 149
Downs Syndrome
Oral dysfunction in children with ... 446
Dummy sucking
Cheek and lip pressure against maxillary dental arch during ... 362
Measurement of intra-oral negative air pressure during ... in human newborn 317

Elastomeric rings
... a method of ligation and its association with microbial colonization of *Streptococcus mutans* and lactobacilli 416
Extraction techniques
A comparison of ... with non-extraction techniques, in Class III malocclusion 212

Face height
... and tooth eruption in adults 249
Facial surface
A mathematical method for the comparison of three-dimensional changes in the ... 95
First cervical vertebra
Association between morphology of ..., head posture, and craniofacial structures 435
Fixed orthodontic appliances
Results of a 3-year oral hygiene programme, including amine products, in patients treated with ... 129
Flattened condylar projection
... in children 161
Fluoride
The effects of pregnancy and ... on orthodontic tooth movements in rats 223
Frictional forces
Effect of bracket and wire composition on ... 322
Functional status
... of orthodontically treated prognathic patients 124

Gender
Effects of ... on nasal cross-sectional area in children 311
Glass ionomer cement
Orthodontic bonding using ... 493
... used as bonding materials for metal orthodontic brackets 187

Harvold treatment
The effect of ... on overbite and molar eruption 53
Vertical skeletal change associated with ... 47
Headgear-reactivator treatment
Cephalometric changes during ... 466
Head posture
Association between morphology of the first cervical vertebra, ... and craniofacial structures 435
The effect of orthognathic surgery on ... 397
Herbst appliance
Long-term effects of the ... in relation to the treatment growth period 471
Human autopsy material
Tooth displacement analysed on ... by means of a strain gauge technique 65

Immediate surgical orthognathic fixation and release
A splint for ... during orthodontic treatment 209
Impaired mandibular growth
... and mandibular development in children with juvenile rheumatoid arthritis 423
Intra-oral force application
Molar distalization by ... 43
Intra-oral negative air pressure
Measurement of ... during dummy sucking 317
Intercranial reference lines
... versus the true horizontal as a basis for cephalometric analysis 167

Jaw muscle cross-sections
Relationship between ... and craniofacial morphology in normal adults, studied with magnetic resonance imaging 351
Juvenile rheumatoid arthritis
Impaired mandibular growth and micrognathic development in children with ... 423

Lactobacilli
Ligature wires and elastomeric rings and their association with microbial colonization of *Streptococcus mutans* and ... 416
Lateral forced bite
Mandibular function in children with a ... 35
Ligature wires
... a method of ligation and its association with microbial colonization of *Streptococcus mutans* and lactobacilli 416
Light cured direct bonding
... — is it necessary to use a primer? 22
Linearity
... of cephalometric digitizers 337
Lip pressure
... against maxillary dental arch during dummy sucking 362
Longitudinal cephalometric data
Multilevel modelling of ... explained for orthodontists 197

Magnetic resonance imaging
Relationship between jaw muscle cross-sections and craniofacial morphology in normal adults, studied with ... 351
Mandibular function
... in children with a lateral forced bite 35
Mandibular growth rotation
Deep bite rotation in relation to ... 86
Mandibular prognathism
Dental and skeletal changes following sagittal split osteotomy for correction of ... 134
Mathematical method
... for the comparison of three-dimensional changes in the facial surface 95
Maxillary anterior teeth
Location of centres of resistance for ... measured on human autopsy material 452
Maxillary dental arch
Cheek and lip pressure against ... during dummy sucking 362
Maxillary expansion
Surface resorption following two forms of rapid ... 264
Maxillary incisors
Autotransplantation of teeth in cases with agenesis or traumatic loss of ... 486

Metal orthodontic brackets
Glass ionomer cements as bonding materials for ... 187
Microbial colonization
Ligature wires and elastomeric rings and their association with ... of *Streptococcus mutans* and lactobacilli 416
Micrognathic development
Impaired mandibular growth and ... in children with juvenile rheumatoid arthritis 423
Mid-line cranial base
Growth of the cartilages of the ... of the Wistar rat 75
Model Positioning Device
Pre-operative planning with ... 367
Molar distalization
... by intra-oral force application 43
Molar eruption
The effect of Andresen, Harvold, and Begg treatment on ... 53
Multilevel modelling
... of longitudinal cephalometric data explained for orthodontists 197

Nasal airflow
... characteristics in a normal sample 1
Nasal cross-sectional area
Effect of age, gender, and body size on ... in children 311
Natural head posture
A comparison between estimated and registered ... 59
Non-extraction techniques
A comparison of ... with extraction techniques, in Class III malocclusion 212

Occlusal asymmetry
Relationship of bicondylar position to ... 441
Open bite
A postero-anterior cephalometric evaluation of adult ... subjects as related to normals 410
Oral dysfunction
... in children with Downs' Syndrome 446
Oral hygiene
Results of a 3-year ... programme, including amine fluoride products, in patients treated with orthodontic appliances 129
Orthodontic anchorage
The efficacy of two-stage titanium implants as ... in the preprosthodontic correction of third molars in adults 287
Orthodontic bonding
... using glass ionomer cement 493
Orthodontic measurement and simulation system (OMSS)
Application of the ... in orthodontics 169
Orthodontic practice
Subjective appraisal of ... 15
Orthodontic tooth movements
The effects of pregnancy and fluoride on ... in rats 223
Orthodontic treatment
A splint for immediate surgical orthognathic fixation and release during ... 209
... in young adults 7
... of unilateral condylar hyperplasia during growth 143
The influence of ... on previously traumatized permanent incisors 372
TMJ function with and without ... 192
Orthognathic surgery
Positioning control of the upper incisors in ... 367
The effect of ... on head posture 397
Osseointegrated implants
The effects of ... on the dentoalveolar development 279
Overbite
The effect of Andresen, Harvold, and Begg treatment on ... 53

Parent treatment satisfaction
An investigation into perceived practice characteristics associated with ... 15
Patient treatment satisfaction
An investigation into perceived practice characteristics associated with ... 15
Periodontal ligament
A stress analysis of the ... under various orthodontic loadings 231
Periodontal threat
Ankylosis of primary molars — a future ... to the first permanent molars? 404
Positioning control
... of the upper incisors in orthognathic surgery 367
Practice characteristics
An investigation into perceived ... associated with patient and parent treatment satisfaction 15
Pregnancy
The effects of ... and fluoride on orthodontic tooth movements in rats 223
Premolar teeth
Spontaneous changes in the rotation of ... from eruption until the established dentition 392
Pre-operative planning
... with the Model Positioning Device and intra-operative application of the Sandwich Splint 367
Preprosthodontic correction
The efficacy of two-stage titanium implants as orthodontic anchorage in the ... of third molars in adults 287
Primary molars
Ankylosis of ... 404
Prognathic patients
The functional status of orthodontically treated ... 124
Prostaglandin E_2
Root resorption after local injection of ... during experimental tooth movement 255

Root resorption
... after local injection of prostaglandin E_2 during experimental tooth movement 255
Rotation
Spontaneous changes in the ... of premolar teeth from eruption until the established dentition 392

Sagittal split osteotomy
Dental and skeletal changes following ... for correction of mandibular prognathism 134
Sandwich Splint
Intra-operative application of the ... 367
Seasonal growth
Flattened condylar projection in children: reflection of ...? 161
Second messengers
...: regulators of mechanically-induced tissue remodelling 271

Shape memory plastic
Potential application of ... as elastic material in clinical orthodontics 179
Shear bond strengths
A comparison of ... between new and recycled ceramic brackets 306
Skeletal changes
... following sagittal split osteotomy for correction of mandibular prognathism 134
Speech sound production
Relationship between craniomandibular dysfunction and patterns of ... in a series of first graders 378
Splint
... for immediate surgical orthognathic fixation and release during orthodontic treatment 209
^{35}S-sulphate
Growth of the cartilages of the mid-line cranial base of the Wistar rat: an autoradiographic study using ... 75
Strain gauge technique
Tooth displacement analysed on human autopsy material by means of a ... 65
Streptococcus mutans
Ligature wires and elastomeric rings, and their association with microbial colonization of ... and lactobacilli 416
Stress analysis
... of the periodontal ligament under various orthodontic loadings 231
Study design
... in a survey of craniomandibular disorders in 1000 12-year-olds 111
Subjective appraisal
... of orthodontic practices 15
Surface resorption
... following two forms of rapid maxillary expansion 264
Surgical treatment
... of unilateral condylar hyperplasia during growth 143

Three-dimensional changes
a mathematical method for the comparison of ... in the facial surface 95
Third molars
The efficacy of two-stage titanium implants as orthodontic anchorage in the preprosthodontic correction of ... in adults 287
Tissue remodelling
Second messengers: regulators of mechanically-induced ... 271
Titanium implants
The efficacy of two-stage ... as orthodontic anchorage in the preprosthodontic correction of third molars in adults 287
TMJ function
Comparison of 'normal' ... in Class I, II, and III individuals 27
... with and without orthodontic treatment 192
Tooth displacement
... analysed on human autopsy material by means of a strain gauge technique 65
Tooth eruption
Face height and ... in adults 249
Tooth movement
Root resorption after local injection of prostaglandin E_2 during experimental ... 255

Traumatic loss
Autotransplantation of teeth in cases with agenesis or ... of maxillary incisors 486
Traumatized permanent incisors
The influence of orthodontic treatment on previously ... 372
Treatment growth period
Long-term effects of the Herbst appliance in relation to the ... 471
True horizontal
Intercranial reference lines versus ... as a basis for cephalometric analysis 167

Unilateral condylar hyperplasia
Orthodontic and surgical treatment of ... during growth 143
Upper incisors
Positioning control of the ... in orthognathic surgery 367

Vertical facial growth
... a longitudinal study from 7 to 14 years of age 202
Vertical skeletal change
... associated with Andresen, Harvold, and Begg treatment 47
Videoregistration
Oral dysfunction in children with Downs' Syndrome: an evaluation of treatment effects by means of ... 446

Wistar rat
Growth of the cartilages of the mid-line cranial base of the ... 75

X chromosome
An extra ... effect on craniofacial morphogenesis in men 329
